## SUMMARY

---

I am a dedicated 3rd year Computer Science student from Lucknow University skilled in Java and Data Structures & Algorithms, with hands-on experience in web development using HTML, CSS, and JavaScript. In addition to academics, I actively create and edit engaging content for my YouTube channel, focusing on gaming, technology, and creative storytelling. My interests include AI-driven simulations and innovative project development. I possess strong leadership, critical thinking, and content creation skills, combining creativity with technology to deliver impactful and engaging digital experiences.

## WORK EXPERIENCE

---

### Internshala

(June 2024 – August 2024)

- Built and deployed responsive websites using HTML, CSS, and JavaScript.
- Worked on improving website performance and mobile compatibility.

### HR Video Editor

Visoka Foundation (June 2023 – Present)

- Created and edited videos highlighting HR events and employee activities.
- Collaborated with HR and media teams to produce high-quality visual content.

## PROJECTS

---

### Weather Forecast App

- A minimal interface showing current weather, temperature, and conditions for any city.
- Built a weather app that fetches real-time data using a public API (like OpenWeatherMap).

### Calculator Web App

- Developed an interactive calculator using HTML, CSS, and JavaScript to perform basic arithmetic operations.
- Enhanced UI with button animations and error handling for invalid inputs.

## EDUCATION

---

### Bachelor of Technology in Computer Science & Engineering :

University Of Lucknow

## SKILLS

---
